

SAFE

SCHOOL ACTION FOR FAST EMERGENCIES

In an emergency, can your team retrieve a student's vital medical information in under 10 seconds, 30 seconds or 60 seconds?

SAFE is the most advanced *medical identification, critical incident and offsite* safety platform **ever built** for schools, colleges and universities to strengthen health and safety on campus.

Fast Access | Clear Decisions | Safer Students

SAFE
THE HEARTBEAT OF SCHOOL SAFETY

www.safeschool-uk.com

What SAFE Delivers

- **Rapid Student & Staff Identification**

Instant access to:

- Student & Staff profiles
- Clinically diagnosed conditions
- Emergency contacts

Ensuring swift, informed first-aid and emergency response.

- **Safer School Outings**

- Group photo identification before departure and on return
- Confirms attendance instantly
- Reduces risk during excursions and off-campus activities

- **Real-time Incident Reporting**

- Log and manage incidents as they occur
- Secure, auditable records
- Improves accountability and post-incident review

- **Parent & Guardian Notifications**

- Immediate alerts during emergencies
- Transparent, timely communication
- Increased trust and reassurance

- **Staff Coordination**

- Centralised access to critical information
- Seamless collaboration in high-pressure situations
- Clear roles and shared situational awareness

- **Data Protection & Compliance**

- Fully GDPR compliant
- Encrypted data handling
- Role-based access controls
- Informed parental consent

Supports alignment with health, safety and child protection regulations - reinforcing your school's duty of care.

The SAFE Advantage

By implementing **SAFE**, your school:

- Demonstrates a proactive commitment to student and staff safety
- Strengthens relationships with families
- Reduces operational risks
- Position itself as a leader in modern school safety practices
